OUR GOAL at Commercial Driver Services

Commercial Driver Services (CDS) is committed to providing outstanding opportunities for people wanting to start or advance their careers through superior local and long haul training programs.

Everyone wants a career with a future. The U.S. Bureau of Labor Employment Outlook states the following: "Taking driver training courses is a desirable method of preparing for truck driving jobs and for obtaining a commercial driver's license. In addition to growth in demand for truck drivers, numerous job openings will occur as experienced drivers leave this large occupation to transfer to other fields of work, retire, or leave the labor force for other reasons." **Commercial Truck Drivers are in demand NOW!**

COURSES OFFERED

The Class A CDL course is offered in both day and night classes. Our comprehensive 160 hour, four week program includes one week in the classroom and three weeks in the field. Students will drive equipment that is compatible with today's modern commercial truck driving industry.

Dump Truck and Bus Training are available.

JOB PLACEMENT

Every student will receive individual attention in their job search with the assistance of our staff. While CDS makes no guarantee of employment, finding each student a driving position is our priority.
